

## **D/ Packaging Line Cross Slicer 208**

Semi-automatic packaging line perfectly completing D/ Cross Slicer 208

Daub has developed a semi-automatic packaging line perfectly completing D/ Cross Slicer 208. The complete unit comprises a bread slicer, bag blower and horizontal conveyor line with bag closing system for clip or twist closures. Swivel wheels and compact design make the unit easy movable so it can be used in various locations.

After slicing of the bread, the bag blower opens the plastic bag by inflating air. Sliced bread is inserted manually in one natural movement into the bag and onto the conveyor line. Filled bags are then transported over the conveyor line to the bag closing system for final closure.

The complete unit of bread slicer, bag blower, conveyor line and bag closing system is with a total footprint of just over 4m<sup>2</sup> the ideal compact slice- and packaging solution for any semi-industrial bakery.

## **D/ Cross Slicer 208 with semi-automatic packaging line** Compact slice- and packaging solution for semi-industrial bakeries

- Semi-automatic packaging line with bag closing system in combination with a D/ Cross Slicer 208
- Complete unit comprises a bread slicer, bag blower table and horizontal conveyor line with bag closing system
