

RIJKAART

FOOD PROCESSING EQUIPMENT

SPECIALTY BREAD LINES

*Made with
passion*

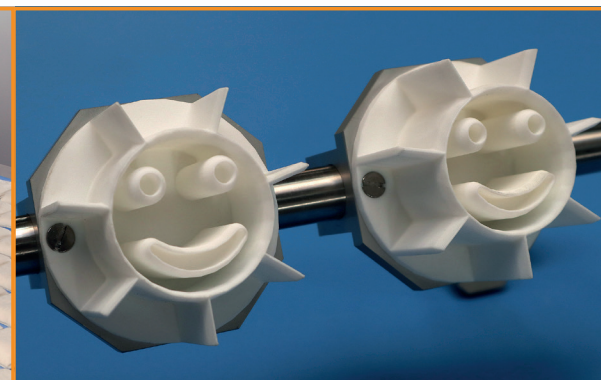

LEADING THE WAY IN **BAKERY MACHINES** FOR FOUR GENERATIONS

Custom made

The Rijkaart specialty bread sheeting line has been designed according to the latest hygiene standards, for the continuous industrial production of all types of bread products. All Rijkaart lines are tailored to meet customer specifications. The Rijkaart specialty bread lines can produce a large variety of high-quality products with efficiency and consistency. The lines are provided with special forming systems for demanding and delicate dough.

The Rijkaart 4 roll dough band former is a reliable and trusted head machine for the Rijkaart bread line. The 4 adjustable rollers give extreme control over the structure and weight consistency of the dough band.

At Rijkaart we turn your ideas into marketable products. With decoration tooling and cutters designed to your exact specifications we can produce whatever you can imagine.

With options for molding/rounding and shaping/forming, the possibilities to produce high quality and uniquely distinctive products are practically limitless.

FEATURES & BENEFITS

- Versatile system for production of different bread products
- Quick and intuitive product change-over
- Fast and efficient hygiene cycles
- Simple to operate with menu driven control system
- Able to connect to your network
- Available in widths up to 1500 mm

The food industry is as exciting for me today as it was almost 45 years ago when my father would take me to the Rijkaart factory in Asperen, to see the very first automatic laminators and pie lines being produced.

Although the world has changed almost beyond recognition since then, one thing that hasn't changed is that Rijkaart is still designing and manufacturing high quality industrial bakery equipment right here in Holland and we are still pioneers in the world of automation.

We understand that to be successful in today's economic climate, we need to look to the future. Since the beginning of 2017 the fourth generation Rijkaart has come on board, my daughter Laura. As a result, the Rijkaart name will continue to exist and the familiar service, quality and customization will remain guaranteed.

Welcome to our family
